ABOUT ME

I am a seasoned web developer and software engineer with a strong background in creating dynamic and visually appealing websites. Over the past 1.5 years, I have successfully delivered three semester projects, showcasing my proficiency in languages such as C++, Python, Java, HTML, CSS, and JavaScript. Additionally, I excel in utilizing modern frameworks like React.js and design tools like Tailwind CSS to enhance user experiences.

WORK EXPERIENCE

I have experienced in web development with a focus on HTML, CSS, and JavaScript essentials. Demonstrated expertise through the completion of multiple projects, highlighting proficiency in front-end development. Consistently delivered high-quality work, ensuring adherence to best practices and client requirements."
